January Principal's Message

Happy New Year!!! Welcome to 2008!!! What an exciting time of year it is as we start fresh and new with renewed vigor to be a little bit better and work a little bit harder. Another reason for excitement is the leaps and bounds the students are making in all subject areas. With fabulous teachers and a solid curriculum, the students really are progressing nicely and the benefits are showing. Every teacher at our school works diligently to help and meet the needs of the individual students in the classroom. Students are gaining a deep appreciation for our own unique culture as Americans from the various studies they are pursuing. From Music to Art and from Math to History, minds are enlightened and students are empowered.

Word is spreading about how remarkable our school truly is. The office is processing an immense amount of prospective student applications from families anxious to enroll their children. As a reminder, the enrollment window for next fall is open until February 15th. After that time, no new families will be selected until the final draw has been made from the applications received prior to the 15th. Each week our class lists for the 2008-2009 school year continually grows. I expect that once the Feb. 15th deadline draws nigh on at a rapid rate. It is extremely fortunate that so many fine families have become a part of our school environment early on. Otherwise we may never have been given the chance to assist your children's education.

ATTENTION PARENTS: In your "Thursday Folder" is a Household Information Questionnaire. We need ALL families to complete this questionnaire. It is very important to the school as some of our funding is tied to the information gathered from the questionnaire. Please help our school save money and receive funds by completing the questionnaire and send it back via the "Thursday Folder." This is a **MANDATORY** requirement of the Utah State Office of Education in order for our school to receive these added benefits.

As we continue the school year I would like to conclude with a quote from R.D. Clyde, "Getting things done is not always what is most important. There is value in allowing others to learn, even if the task is not accomplished as quickly, efficiently or effectively." May we all learn the value of allowing others to learn and hopefully next December we can all look back upon our accomplishments and be better than we have ever been before. Let's make this year our best year ever!
